# Delivery Methods Explained

## Online Licensing Education

Although this is an online course, it is instructor-led. The course is designed for maximum interaction between instructors and students through many online activities and discussion boards. You will complete daily tasks as assigned by your instructor. NMLS course approval guidelines say you must accumulate 20 hours in the course to receive credit within the 7-day course timeline.

This course features automatic tracking of your progress with the ability to resume where you left off, online final examination, and instant grading.

## Online CE

This online, self-paced delivery method is available 24/7/365 on your own schedule, when it is convenient for you. Courses are delivered entirely over the Internet, and feature toll-free tech support, online instructional support, student records, and certificate generation upon completion of courses.

## OnDemand

### Available for National and State-Specific Exam Prep

You can take these courses 24/7/365, on your own schedule, anytime it is convenient for you. You just need access to the Internet. You will experience pre-recorded instructor-led courses that allow you to control the class time and length each time you login. You can start, stop, pause, and rewind each lesson or segment as often as you like. You will also have access to email instructors with questions.

## Live Classroom

### Available for Licensing Education, National and State-Specific Exam Prep, and Continuing Education

If you prefer a learning environment with maximum teacher/student interaction, then our Live Classroom option is the choice for you. Nothing can match the dynamic discussions you'll find in this setting.

Engaging Live Classroom Mortgage Education is offered in metro areas of California, Colorado, Minnesota, New Mexico, and Texas.

State	Metro Areas
CA	San Diego, San Francisco,
